“Households” are the number of WWP homes with current paid memberships. “Individuals” comprise the total number of people over the age of 18 in those WWP households (this number takes into account residents of the same address with different last names). A business counts as 1 membership in either case.

Membership tallies were not kept prior to June 2003, but this number is high because a large number of residents joined WWP in April 2003 just prior to the annual meeting; 117 of those memberships expired in April 2004, and 81 were deleted for non-renewal the following July.

NOTE: A membership expires at the end of the month in which it was originally paid (e.g., a new membership received any time in April '03 will expire at the end of April '04; if it's renewed late, say in July '04, it's considered retroactively paid and good through April '05). A membership not renewed within three months after expiration is dropped from the roster but can be reinstated on the same expiration schedule, provided it is brought fully up to date within 13 months. Any membership unpaid for more than 13 months after expiration, if reinstated, is treated as new (with a new expiration date).
